

# Forest Stewardship Council® UK Social Media Community Guidelines

Last updated May 2026

You can find FSC UK on the following social media platforms:

- [LinkedIn](#)
- [Instagram](#)
- [Facebook](#)
- [YouTube](#)
- [BlueSky](#)

FSC UK also has a profile on Threads which is monitored but not used for regular posting.

FSC UK stopped using X in January 2025, but the profile is still monitored and directs users to other platforms.

1. As a small organisation, our capacity to monitor social media channels is limited, and we cannot guarantee an immediate response to comments and messages, particularly out of office hours
2. Please send feedback, requests or complaints to our general inbox, [info@fsc-uk.org](mailto:info@fsc-uk.org), from where they will be directed to the most appropriate FSC contact.
3. We welcome constructive feedback and healthy debate, but we may hide or remove comments, and block the accounts, of those who share content that we consider to be:

- abusive or threatening
- offensive
- inciting hate
- obscene, defamatory or insulting
- unlawful
- purposefully deceptive
- contrary to our charitable objectives.

If we feel you are breaking the guidelines of the social media provider, we will also report your posts and/or account to the relevant social media network as per the mechanisms they provide.
